This is the welcome page of our recipe app titled "Boarder's Recipe". It is a recipe app that targets boarder's or anyone who is a starter or veteran in cooking. When you click start.

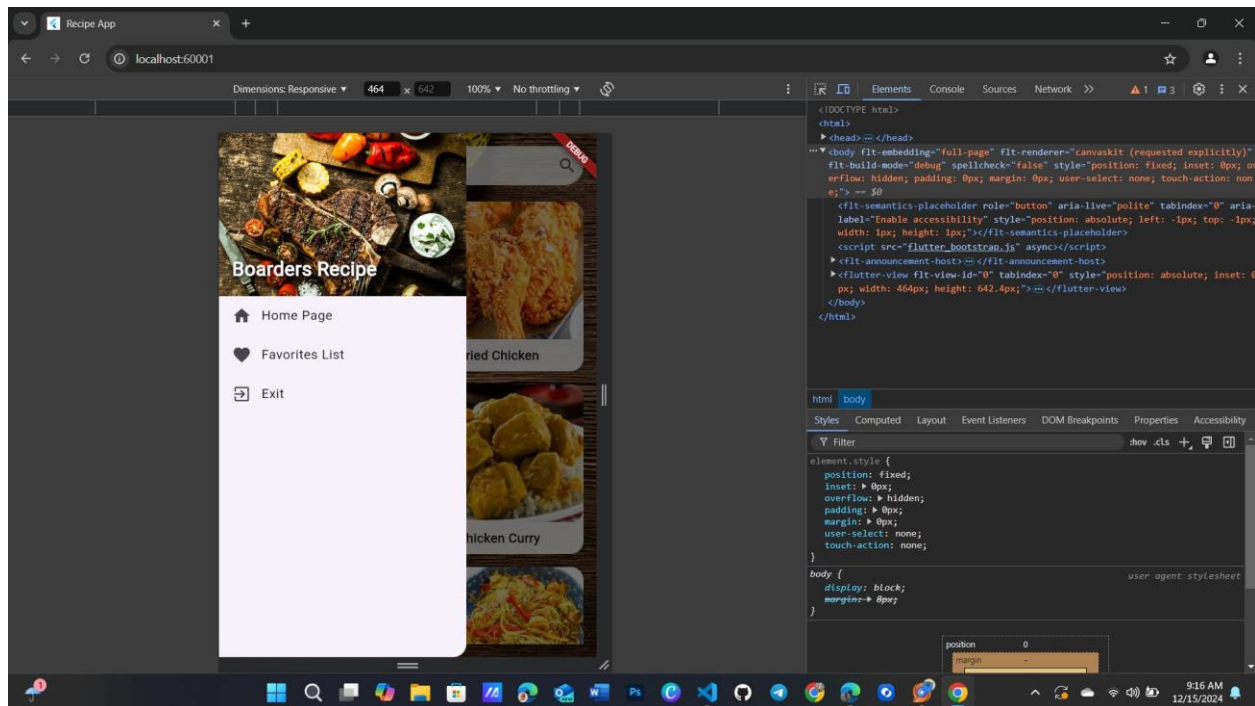

The next page will view the home page. In this homepage you can see the kitchen dish that is categorize in different type of food such as chicken, pork, and etc. It can be scroll down to view all the food. And in the upper part you can view the search bar and in the left upper side is border bar.

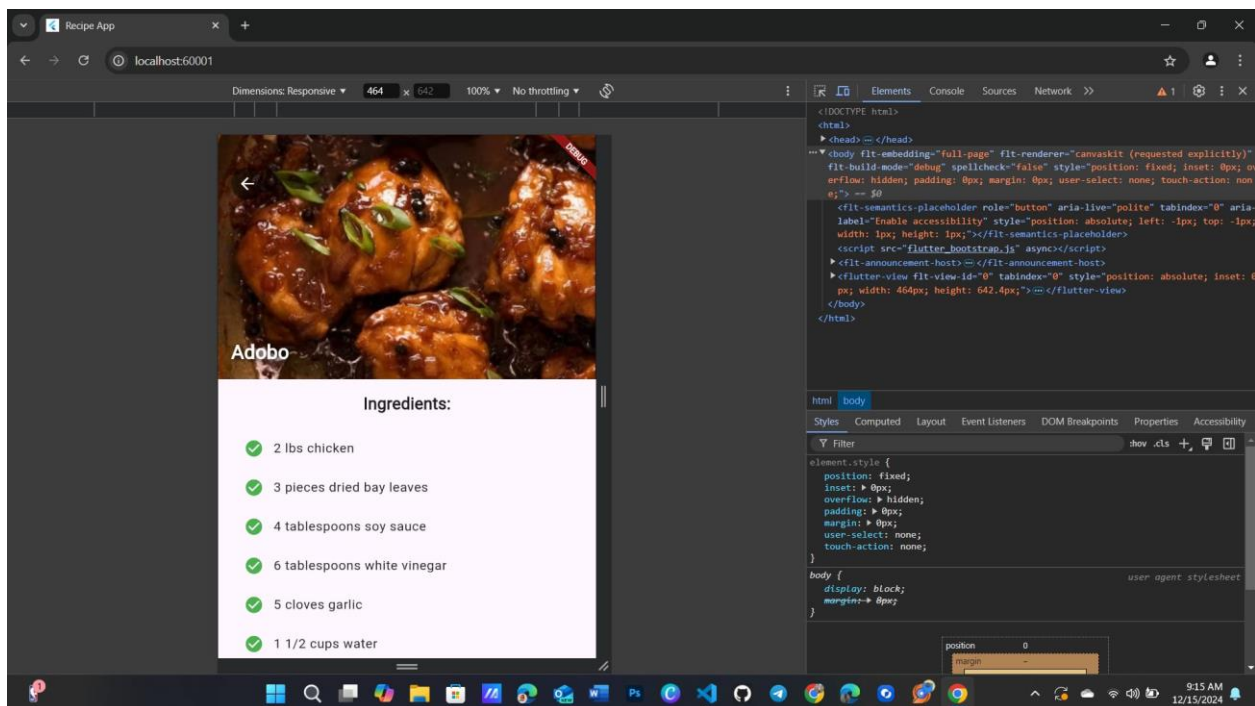

In the search bar you can search the dish, recipe or anything that the application can be given. Using the filtered item we can literally view the search item. It is one of our feature in this app.

In the border bar we can see the favorite list and exit button. Favorite list is one also of our feature but we did not finish it because of the lack of time.

In this page we can see also our feature which it you can view the recipe's, measuring, and it's time how long will it take to cook or make something in our given application

In this image, we can see the group coordination and teamwork to make this application work. Through collaboration of idea and connect we present to you our mobile application
